

Parent4Parent

South Uttlesford Parent4Parent

Parent4Parent is your local information group to support & listen to any carer of a child or young person with social communications difficulties. Some will have a diagnosis of Autism or Asperger's Syndrome, dyspraxia, ADHD, ODD, dyslexia, PDD etc and others will not.

We want to help, share information & exchange ideas, listen, raise awareness of the needs of children & families, highlight services & schemes, offer suggestions or simply point you into the right direction.

So come along to your local friendly information group – a place to be listened to & heard in confidence and join us for coffee or tea and make this your friendly local group. Every parent and carer is welcomed and babies & toddlers are welcomed too at parents / carers responsibility.

Your support & opinions are invaluable!
