

BINGO

Virtual Fundraising Toolkit

You will need:

- A computer or phone with a video chat function (i.e. Zoom)
- A willing bingo caller and group of friends to play
- Bingo numbers or a bingo calling site such as letsplaybingo.io
- Bingo Cards (download our free template at accuro.org.uk/online-toolkits)
- A random number generator such as random.org
- A way for friends to donate (i.e. a JustGiving or Virgin Money Giving page).
- A prize for the winner.
- An agreed date and time!

On the night:

- Ask your friends to donate a small amount each to play.
- Gather your friends in a video chat.
- Everyone should receive a card to print off, or they could draw their own 9x9 square.
- Use a random number generator to generate 9 numbers between 1-90 for each person playing. They can fill in their card at home.
- You're ready to play! The bingo caller will either need to use their computer to call numbers using a bingo calling site, or numbers picked out of a hat.
- The first person to a full house wins!
